WALT: Draw a hand using pencil

Following on from our lesson this week, I would like you to draw a picture of a hand. I am looking at how we can add depth to a picture using shading. When drawing the hand, look closely at areas of dark and light. Look at the area around the finger nails, between the fingers and around the outside of the hand.

Remember - it is about the shading, not the hand. So if you are struggling to draw a hand then draw round your own, then shade it in.
