MFL

Choose 5 countries, write the name of the continent and the capital city of each country using French vocabulary.

Maths

Choose two numbers from the list. Complete three different additions and three different subtractions using the column methods.

4657	4654	4627
2314	2317	2354

Geography

Create a model volcano.
On your model include some labels to show lava flow, the main vent, magma chamber, crater.

English

Create 10 sentences about a topic that interests you. Each sentence must include a subordinate clause. Underline the subordinate clause.

Science

Record some of the different ways that you have used electricity today. Select whether the electricity you used at that time was supplied by mains or battery. Next, decide if each way you used electricity was an 'essential' use of electricity or not. Remember that 'essential' means absolutely necessary and very important. Then, explain why you think it is essential or not.

RE

Our Christian value this term is **courage**. Write about a time when you have shown courage.
